Department of Health Services

Review of Responses to Comments on the *Draft Final Phase III Radiation Investigation Work Plan*, Hunters Point Shipyard, San Francisco, California, October 15, 1996

November 15, 1996

DTSC Resource Planning Form # 301

The following comments are in response to the request from Mr. Cyrus Shabahari of the Department of Toxic Substances Control to review the revised document *Draft Final Phase III Radiation Investigation Work Plan*, Hunters Point Shipyard, San Francisco, California, October 15, 1996 and responses to comments from the earlier draft document of February 15, 1996 for radiological concerns.

General Comments:

1. The responses to comments and the changes and additions to the document appear adequate, unless noted below as needing additional clarification or verification.
2. Please verify that Hunters Point Shipyard is another name for Hunters Point Annex, and HPA is equivalent to HPS. Both designations were used in the document.
3. Please verify that NUREG-1507 referenced in the newly added Appendix A, Attachment X is to be used in addition to NUREG-5849. If so, this reference should be added to page 6 under Section 2.1, "Radiological Survey Guidance Documents" and to "References" on page 52.

Specific Comments:

1. Page 18, Section 3.1.2.1, Building 214 (Room 105), Recommendation. "Building 214" was changed to "Building 215." Please verify that this is a "typo" and will be changed back to the earlier version, "Building 214."
2. Page 29, Section 3.1.4.6 Buildings 830 and 831, Site Reconnaissance. Please verify that the "building" referred to includes both Buildings 830 and 831 and that they are owned, instead of leased, by the University of California at San Francisco.
3. Page 5 of Responses to Comments, Response to Comment 7 (Page 23, Section 3.1.3.6, Building 365). DHS was unable to find the letter attached that references this building. The attached documents only referred to Buildings 815, 364 and 816. The additional responses and additions to pages 23 and 24 of the text appear to adequately address DHS' concerns about this building. Please specify where in the document sent to DHS (Memorandum 165-52, dated 19 August 1979, from A. F. Wardwell, regarding Monitoring and decontamination of ex-NRDL buildings 815, 364 and 816) is the information regarding Building 365. If this information is not available, please clarify or remove the sentence, "These letters are provided as an attachment.", from the response to Comment 7.
4. Page X-2, Attachment X of Appendix A. The first sentence of the last paragraph references NUREG-5489. Please verify if this is the correct document or whether it was intended as NUREG-5849.
